# FROM THE WEAPONS OF WAR TO THE PRODUCTS OF PEACE

We at Vulcan are proud of the part we have played and are still playing in Canada's War Effort.

As World War II passes into its final stages, we wish to announce to our peacetime customers that our increased capacity places us in a position to serve them even more efficiently than in the past.

Phone 57121 or write Vulcan Iron Works Limited, Winnipeg, and avail yourselves of the services of our engineering, estimating and designing departments.

New bulletins covering our Blacksmith Shop, Foundry, Structural Steel, Ornamental Iron, and Boiler Shop Divisions now available upon request.

Our Modern Winnipeg plant, with its many departments, forms a unit capable of producing a wide range of products. It will be our pleasure, therefore, to place at your disposal the following Vulcan facilities: Blacksmith and Forging Division—Foundry Division—Electric Steel and Grey Iron—Pattern Shop Division—Wood and Metal Patterns—Structural Steel and Ornamental Division—Machine Shop Division—Boiler and Tank Division—Engineering and Inspection Division.

## *Power for Rural Industry*

Abundant power at reasonable rates will play a vital role in the attraction of new industries to Manitoba. Fortunately our province is rich in water power resources and the Manitoba Power Commission transmits electricity to rural citizens on a service-at-cost basis.

As the number of consumers has increased, the rates have been reduced. Since 1932 there has been a 40% reduction of rates. Industries are assured of low-cost, dependable electric power from the provincial hydro now serving 157 cities, towns and villages throughout Manitoba.

**THE MANITOBA POWER COMMISSION**

# A REAL HOLIDAY FOR THE TOURIST

LAKE WINNIPEG EXCURSIONS 1944

*S S Keenora*

The only real passenger boat on Lake Winnipeg making weekly trips leaving Winnipeg and Selkirk each Monday during June, July and August. Accommodation 159 passengers. Comfortable staterooms, lounge, etc. For reservations and reliable information, wire or write THE SELKIRK NAVIGATION CO. LTD., Selkirk, Manitoba, or Winnipeg, phone 22-303.

**FIRST CLASS  
SERVICE ALWAYS**

A S.S. trip on Lake Winnipeg into the heart of Northern Manitoba offers an opportunity to see and enjoy this beautiful country so rich in historic interest, where night and day scenes are separated by a few hours of sunlight. A trip comparable in every way to a visit to the Norwegian fjords. A Europe cruise seems never forgotten.

The boat leaves Winnipeg, along the old Red River through the St. Andrews Locks past the stone walls and bastions of Lower Fort Garry at Red River Bay farm and the home of the soldiers during the Northwest Rebellion in 1870. The boat calls at Selkirk named after Lord Selkirk founder of the first Red River Settlement two hours after reaching Lake Winnipeg was made ready for the long, slow, but agreeable trip across the great expanse of water beyond all vision. The boat passes through the narrow channel of the Assiniboine River to the mighty Nelson. In view of the historic settlement of Norway House a day spent in the remains of this unique and ancient journey, brightened by new points of call, new scenes of interest until the arrival at Winnipeg brings to a close the charming Lake Cruise.

## OUT PRODUCTION COSTS

Eliminate 75% Friction in  
 All Types of Machinery and Equipment.  
 Official Tests with S.A.E. extreme pressure oil testing machine proves that 10% of BAR-DOL in another oil increases the film strength of that oil nearly 10 times.

RESULTS—in actual use in scores of plants across Canada BAR-DOL has:-

- Eliminated the problem of overheated bearings.
- Cut power consumption.
- Cut lubrication costs.
- Lengthened greatly life of replaceable parts.

BAR-DOL contains NO Sulphur, Graphite, Acidic or Harmful Chemicals.

**OILS**  
**GREASES**

•  
Lubricated  
Lubrication

THERE IS A BAR-DOL LUBRICANT FOR EVERY TYPE OF EQUIPMENT
